### INTEGRATED PEST MANAGEMENT INFORMATION

Dear Parent or Guardian,

We would like to inform you that an Integrated Pest Management (IPM) approach for controlling insects, rodents, and weeds will be used at Snoqualmie Valley School District. The IPM approach we will be using focuses on making the school buildings and grounds an unfavorable place for pests to live and breed. Through maintenance and cleaning, we will reduce or eliminate available food and water sources, and hiding places for the pests. We will also routinely monitor the school area to detect pest problems and prevent the pests from becoming established. Some IPM techniques we will employ in monitoring, increased sanitation, sealing entry points, physically removing the pests, and modifying storage practices.

From time to time, it may be necessary to use chemicals to control a pest problem. Chemicals will only be used when necessary, and will not be routinely applied. When chemicals must be used, the school will try to use the least toxic products when possible. Access to treated areas will be secured against unauthorized access for the period specified on the pesticide label. Notices will be posted at application sites and will remain there until the posted safe re-entry time is met.

For your information, we have a list of pesticides and material safety and data sheets (MSDS) that may be used in the school this school year. This list may be obtained by contacting the IPM coordinator at District Administration Office.

Parents or guardians may request prior notification of specific pesticide applications made at the school. To receive notification you must be placed on the notification registry. After September 2009, when school is in session the registrants will be notified at least 72 hours before a pesticide is applied. If a chemical application must be made to control an emergency pest problem, notice will be provided as soon as possible after the application. Exemptions to this notification include cleaners (disinfectants), bait and gels, and any EPA exempt pesticides. If you would like to be placed on this registry, please complete and return the form on the back of this paper.

If you have any questions please contact Carl Larson 425-831-8031, IPM Coordinator.

Sincerely,

Carl Larson

### Notification for Specific Pesticide Application

Date: \_\_\_\_\_

School: \_\_\_\_\_

I would like to be notified before any specific pesticide application is made at this school.  
I understand that I will be notified after the application, if the pest problem requires an emergency application.

I would prefer to be contacted by (check only one):

Phone

U.S. Mail

E-mail

Name of Parent/Guardian: \_\_\_\_\_

Address: \_\_\_\_\_

\_\_\_\_\_

Daytime Phone: \_\_\_\_\_

Evening Phone: \_\_\_\_\_
