

Mount Si High School *Construction Update*

Construction has begun...

Construction on the Mount Si High School expansion and modernization project officially began in September. To keep the community apprised of the progress, the District will provide a brief monthly update, for the duration of this exciting project. Each month the update will vary -- ranging from a status report from the project manager, to photos of work underway, to a video, or a message from the principal. Look for this brief update around the 20th of each month...and follow the transformation of the high school!

Watch the Fall 2016 Video Update

This month, the District is pleased to present a brief video that highlights activity from the past few months, since the groundbreaking ceremony on June 8, 2016. [Click here to watch the video.](#)

For more information:

Find more details about this 2015 bond project and others on the district website at: www.svsd410.org. Select the **Facilities Planning and Construction** icon and explore the planning that has gone into these projects. All updates will be posted on this website, just as progress was reported for Timber Ridge Elementary School construction.

Thank you for supporting Snoqualmie Valley schools!
