Tools

The Tools dropdown allows a user to select Home Settings and to Show or Hide Messages on the Wall.

All Students

Family Access will provide information for all students in a family. A dropdown allows users to select a single student to view or allows for information for all students to be viewed at one time. Options available when a single student is selected may differ from options when viewing All Students.

District Links

District Links are hyperlinks the school district configures that direct a user to another website. For example, if you want to move between two different school websites within our district.
