## **The Improvement Process**

The continual improvement of public schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with staff development, focused and aligned resources, and public participation in planning, are critical factors in improving schools. Prudent decisions are based on systematic analysis of data.

The improvement process assesses the school's strengths and weaknesses, implements strategies and activities to address the school's needs, and continually evaluates the school's progress toward achieving its objectives and meeting its goals.

This tool is designed to be a living, breathing, document that can be easily accessed, monitored, and adjusted and emphasizes continuous growth allowing educators an opportunity to address immediate instructional and management issues by helping define and manage the variety of connections among people, resources, information, and data. This will also empower educators and stakeholders to collaborate in order to help schools make data-driven, research-based, decisions focused on improving student learning.

## **A School's Learning Improvement Process**

- Entails commitment by all involved: students, staff, parents, administrators, and community.
- Is continual and recursive. Components of the process must be revisited time and time again, for the school improvement process is a continuous cycle.
- Reveals where a school is and where it must go. Knowing this information involves repeated analyses and periodic checks, both of which call for time, patience, understanding, energy, and direction.
- Is led by the principal and a building's learning improvement team. However, all members of the staff and community are involved in both the design and implementation, because they are stakeholders in the improvement of student learning.
- Requires collaboration with the district office.
- Is based on data; and as the data changes, the implementation of the plan should reflect that change.
- Involves change, which takes time and tends to be difficult.
- Requires commitment to the vision of what the school can become.

## Assumptions

Several assumptions are being made before a learning improvement team can dive into the process. The assumptions include:

- The school has a defined mission statement and members of the learning community use it as their driver for decisions.
- The school has established a learning improvement team and the learning improvement team, the principal, staff members, and parents have a clear understanding of why a systemic learning improvement process is necessary and what role they play in the process.
- The learning improvement team has adequate knowledge (or the commitment to gain that knowledge) in the school improvement process and research-based practices.

## Guiding Principles of School Improvement Planning

Certain key principles have guided the process and the development of the improvement plan.

- All members of a school staff, and representatives of as many other stakeholders as possible, should participate in the planning process.
- Participants should review a broad database that includes information about student achievement, demography, learning environment, and perceptions about the school.
- School Improvement Planning is a journey of continuous improvement, and the plan is a roadmap for an ongoing discourse on school improvement.
- The School Improvement document is only as good as the quality of thought that goes into it and the time and commitment that is given by everyone who has a stake in the plan.
- The School Improvement Plan should address the following guiding questions:
  - *What do we want each student to learn?*
  - *How will we know when each student has learned it?*
  - *How will we respond when a student experiences difficulty in learning?*
  - *How will we respond when a student has already learned it?*
- Regardless of the quality of the plan, the real improvement must occur in the classroom. Teachers must be reflective about their practice and tenacious in their attempt to fine tune the art of teaching to meet the needs of every student.

## Review and Analysis of Data

In addition to statewide assessments, check all district data reviewed and analyzed in preparation and development of your school improvement plan.

### *Summary of strengths or greatest progress based on the data:*

➤ Math SBA-20 seventh grade students improved from a level 2 to a 3
➤ PBIS-Through the Tiered Fidelity Inventory, we made school-wide gains, reaching Tier 2
➤ Relationships-Student survey data showed increase in number of students reporting a relationship with a trusted adult and feeling safe at school
➤ STAR Reading-Met overall goal. Moved 35 students from “On Watch” to meeting benchmark

### *Prioritized areas of opportunities or greatest challenge based on the data:*

➤ Math and Literacy-Increasing the number of students meeting standard on the Smarter Balanced ELA and Math assessments. Specific attention is needed in the area of Special Education Math.
➤ Attendance-Decrease the number of students who are chronically absent. In 2017-2018, 8% of students missed more than ten school days
➤ RTI/MTSS-Implementing Tier 2 academic and behavioral interventions
➤ Improve % of students who report having established a connection or relationship with a CKMS staff member and overall feeling of safety at school

**GOAL 1: SCHOOL ENVIRONMENT---SOCIAL EMOTIONAL**  
**Objective 1A: Positive Behavior Intervention and Supports (PBIS)**

**OBJECTIVE:**

Maintain and enhance a tiered, system-wide approach focused on improving building capacity to address behavior and make evidence-based social and emotional learning an integral part of education (Strategic Plan 1D).

**During the 2018-19 school year, Chief Kanim Middle School will decrease the number of SWIS Referral Forms, specifically targeting referrals administered on Thursdays.**

**DESCRIPTION:**

Social emotional skills are the skills that allow us to understand ourselves and to form healthy relationships with other people. These skills include the ability to recognize and manage emotions, to consider the perspective of others, and to effectively resolve conflicts. Social emotional skills are developed through the experiences of daily living and can also be taught and practiced. Research has shown that acquiring social emotional skills through instruction supports academic achievement and prevents risky behavior (Durlak, et. Al 2011). These competencies serve as a foundation for making responsible decisions that support individual well-being and, more broadly, support healthy communities. Challenging student behavior is often due to a skill-set deficit or a lack of base level supports. Steps can be taken to teach the needed pro-social skills and increase evidence-based supports district-wide.

**PROGRESS MEASUREMENT:**

- Completion of Action Steps (outlined below)
- Tiered Fidelity Inventory: reach 80% fidelity on Tier 1
- SWIS Discipline Data- 80% of staff (classified and certified) implementing behavior flowchart system with fidelity

**ACTION STEPS:**

**Begin/strengthen implementation of a MTSS approach focused on improving District capacity to address student behavior and make evidence-based social and emotional learning an integral part of education from preschool through high school.**

**Focus Areas include:**

- Differentiated instruction, student engagement, and connections to college, career, and citizenship
- Collaboration and collegial practices

**GOAL 1: SCHOOL ENVIRONMENT---SOCIAL EMOTIONAL**  
**Objective 1B: School Culture**

**OBJECTIVE:**

Create a school culture that promotes the ongoing improvement of learning and teaching for students and staff (AWSP Criterion 1).

**During the 2018-2019 school year, Chief Kanim Middle School will increase the frequency of AVID strategies in classroom instruction.**

**DESCRIPTION:**

“Leaders ask ‘what is essential, what needs to be done, and how can we get it done?’ An effective leader maintains visibility and transparency and creates a culture that fosters mutual accountability; it becomes the responsibility of all staff to make sure that all students are successful. An effective leader advocates, nurtures, and sustains a school culture and instructional program that promotes student learning and staff professional growth. They lead by ‘creating powerful, equitable, learning opportunities for students, professionals, and the system, and motivating or compelling participants to take advantage of these opportunities’” (Knapp, Copland, Talbert, 2003, p.12, as quoted in Murphy, 2006).

**PROGRESS MEASUREMENT:**

- AVID Coaching and Certification Instrument (CCI)
- Utilize a WICOR (Writing, Inquiry, Collaboration, Organization & Reading) tracker during classroom visits
- Staff survey
- Student survey

**ACTION STEPS:**

The primary leads responsible for the action steps (listed below) are *Principal* and *Assistant Principal*.

**Begin/strengthen implementation of a MTSS approach focused on improving District capacity to address student behavior and make evidence-based social and emotional learning an integral part of education from preschool through high school.**

**Focus Areas include:**

- **Differentiated instruction, student engagement, and connections to college, career, and citizenship**
- **Collaboration and collegial practices**

**GOAL 1: SCHOOL ENVIRONMENT---SOCIAL EMOTIONAL**  
**Objective 1C: School Safety**

**OBJECTIVE:**

To promote school safety and security, prepare for unexpected events, and have systems in place for emergency communications is a key component of Snoqualmie Valley School District communications. (Strategic Plan 3D)

**DESCRIPTION:**

The process of identifying facility needs (short-term and long-term) will provide and ensure safe, secure, and healthy facilities for students and staff. This objective will also facilitate communication to the community regarding the condition of the facility. The building works to identify resources, refresh contact information, define protocols, practice responses, and partner with community agencies, to prepare for unplanned situations.

**PROGRESS MEASUREMENT:**

- Drill log
- Staff sign in sheets for training

**ACTION STEPS:**

**Begin/strengthen implementation of a MTSS approach focused on improving District capacity to address student behavior and make evidence-based social and emotional learning an integral part of education from preschool through high school.**

**Focus Areas include:**

- **Differentiated instruction, student engagement, and connections to college, career, and citizenship**
- **Collaboration and collegial practices**

**GOAL 2: Using Data and Assessment to Inform Instruction**  
**OBJECTIVE 2A: Math**

**OBJECTIVE:** Teachers will use multiple data elements to differentiate mathematics instruction to meet the needs of all students.

**During the 2018-2019 school year, 80% of all Chief Kanim students in each grade level, will meet or exceed standard on the Smarter Balanced Math Assessment.**

**DESCRIPTION:** Teachers regularly utilize a full repertoire of strategies and interventions to meet the diverse needs of all students. We will analyze data from multiple assessment measures to differentiate instructional practices to promote high levels of student growth in mathematics.

**PROGRESS MEASUREMENT:**

- STAR Assessments, BOY, MOY, EOY
- Interim Assessment Blocks
- Common Summative Assessment
- Formative Classroom Assessments

**ACTION STEPS:**

**Research, review and implement activities, curriculum, and structural changes within an MTSS system to facilitate program alignment, *reduce opportunity gaps* and produce more personalized student learning environments.**

**Focus areas include:**

- **SpEd, Poverty and EL in math and reading**
- **Differentiated instruction, student engagement, and connections to college, career, and citizenship**
- **Collaboration and collegial practices**

**GOAL 2: Using Data and Assessment to Inform Instruction**  
**Objective 2B: English Language Arts (ELA)**

**OBJECTIVE:**

Teachers will use multiple data elements to differentiate ELA instruction to meet the needs of all students.

**During the 2018-2019 school year, 80% of all Chief Kanim students in each grade level, will meet or exceed standard on the Smarter Balanced ELA Assessment.**

**DESCRIPTION:**

Teachers regularly utilize a full repertoire of strategies and interventions to meet the diverse needs of all students. We will analyze data from multiple assessment measures to differentiate instructional practices to promote high levels of student growth in English Language Arts.

**PROGRESS MEASUREMENT:**
